

Our Goal

At SummerNy, we pride ourselves for training dogs (and people) to work livestock with kindness and respect. Dogs are essential to the working livestock farm/ranch and it is equally important to minimize the stress to the livestock.

Our goal is to demonstrate and educate the public on how working dogs are trained, treated and used on a working farm or ranch. From gathering from the field to sorting to loading in a trailer, we want to share how amazing these dogs are and how important they are to a farmer or rancher.
